

Eighth British Columbia Paleontological Symposium

Presented by the Vancouver Paleontological Society,
University of British Columbia, Earth and Ocean Sciences, and
British Columbia Paleontological Alliance

MAY 15-18, 2009

2009 BCPA CONFERENCE - The Vancouver Paleontological Society invites you to the Eighth British Columbia Paleontological Symposium, to be held at the University of British Columbia, May 15-18, 2009.

This year's keynote speaker will be Dr. Gregory Wilson, a specialist on the evolution and ecology of early mammals, University of Washington, Department of Biology and Adjunct Curator at the Burke Museum.

Continuing the format of past symposia, the meeting will bring together both the professional and avocational paleontological community. As well as an engaging line-up of speakers, there will also be a fossil field trip to Harrison Lake, workshops, retail booth and the return of the popular Paleo Art Show, all free with your full conference pass.

FOSSIL MAMMALS - The symposium will highlight fossil mammals, but we invite talks, posters and displays showcasing all aspects of paleontology, with non-academics especially encouraged to contribute.

OPEN HOUSE - A Community Open House and Workshops will be held on the Sunday for conference attendees and members of the general public.

REGISTRATION – FULL SYMPOSIUM PASS

Name/Affiliation _____
